### **The legacy of the Home Science Department and its present status:**

In 1975, the Home Science Department was established at the Guru Nanak Khalsa College for Women, Gurjarkhan Campus, Model Town, Ludhiana. For this department, there was only one Lecturer at first. Only 60 kids were enrolled in prep school and 25 were enrolled in first year. There was only one laboratory present at first. There was no lab attendant in the department. One attendant was hired in 1976, and a lab assistant was hired in 1980. In 1978, the department appointed a second lecturer. The construction of the second lab in 1982 coincided with the students' growing numbers. The Department was located on the first floor. However, the entire department was moved to the first level in 2001–2002.

There are now a total of two labs—one for sewing and one for cooking. For the teaching staff, there is a single staff room with a bathroom right next to it. For storing excess equipment, sewing machines, and armoires, one storage room is provided.

A single attendant's room has also been created so that she may give the pupils during practical what they need. Two permanent faculty members, two adohc faculty members, one lab assistant, and one lab attendant were scheduled to ensure that classes ran well as enrollment grew in the ensuing years. Only degree-related coursework remained as a component of higher education over time, and prep or Sr. Sec programmes were rescheduled for school levels. As of right now, the department consists of one Adohc and one Permanent Faculty member, as well as a Lab Assistant and a Lab Attendant.
