Solar energy is produced by the sun's light, and photovoltaic energy is one of the most promising energy sources since it is renewable, limitless, non-polluting, prevents global warming, uses less fossil fuels, requires fewer energy imports, and supports sustainable growth. To address the country's energy needs, the Ministry of New and Renewable Energy (MNRE) of the Government of India has been promoting the development and implementation of new and renewable energy. Guru Nanak Khalsa College for Women is dedicated to encourage the use of solar energy and energy-saving equipment on campus.

Celebration of Akshay Urja Diwas

Energy Management Team of SES-REC of Guru Nanak Khalsa College for Women, Ludhiana celebrated Akshay Urja Diwas on August 23, 2023.

Methods of saving energy and use of renewable sources of energy were discussed. With an aim of raising awareness about energy management, nine students from various streams wrote quotes for saving energy and displayed at different places in the college.
